---

## Objective

I am final-year student of electronics and computer engineering, where I can utilize my skills like Linux Administrator, Containerization in Linux to contribute to your company. Looking forward to being a part of a dynamic team and growing professionally in a environment.

---

## Education

B.Tech (Electronics & Computer Engg.)	MIT College, Chhatrapati Sambhajinagar	8.04
HSC (State Board)	BNB College, Digras Yavatmal	86.67%
SSC (State Board)	Rastriya Vidyalaya, Digras, Yavatmal	80.00%

---

## Work Experience

1. Vtelebyte: Sanjeev Group Pvt. Ltd | DevOps Intern | 20 Jan 2025 –20 July 2025

**Implemented CI/CD pipelines** using Jenkins, Docker, and GitHub Actions to automate .NET application deployments.

**Worked with containerization tools** like Docker and Docker Compose to create efficient development and testing environments.

**Developed and managed CI/CD pipelines** using Jenkins and Docker to automate the deployment of .NET applications on a local DevOps environment.

---

## Projects

### 1. Timetable Generator

Tools: *frontend: React , Backend: Node , Database: MongoDB*

- Designed a system to generate class-wise theory and lab timetables with customizable time slots.
- Implemented conflict detection to identify overlapping sessions and suggest optimal adjustments.
- Enabled admin/user input for dynamic scheduling and improved time management efficiency.

### 2. Expense Tracker

Tools: *frontend: React , Backend: Node , Database: MongoDB*

- Developed a user-friendly interface to log, categorize, and track daily expenses and income sources.
  - Implemented budget-setting features with category-wise limits and real-time alert notifications.
  - Enabled financial analysis through summaries and visual reports for better money management.
- 

## Certifications

1. Red Hat Certified System Administrator (RHCSA), Certification I'd: 240-163-907

2. OCI Foundations Associate (2025)

3. Red Hat Certified Specialist in OpenShift AI Certification I'd: 240-201-145

---

## Technical Skills

- Languages & Frameworks: Linux, Podman, Containerization, Python, HTML, CSS, EC2
  - Deployment & Servers: IIS, NGINX
  - Database: MySQL
  - Tools: Ubuntu, Jenkins, GitHub, Docker, RedHat Linux, Jira, ASP.Net MVC, CLI
-
